  - NMHIX – New Mexico Health Insurance Exchange
  - OEP – Open Enrollment Period
  - QHP – Qualified Health Plan
  - SBE – State Based Exchange
  - SIT – System Integration Testing

# Executive Summary

---

- ❑ As New Mexico is transitioning to an SBE, 2022 plan year renewal and enrollment will occur in the NMHIX system. All 2021 plan year enrollments and changes will occur in Healthcare.gov.
- ❑ Eligibility and Enrollment data from the FFM will be migrated to the NMHIX system; this process will involve multiple data transfer events.
- ❑ This migration and renewals process involves integration among multiple sources at different stages to exchange the required information to support the business processes:
  - FFM and NMHIX
  - NMHIX and Consumers
  - NMHIX and Carriers
- ❑ NMHIX will be releasing 834s to carriers after consumer enrolls and pays for the plan beginning November 1, 2021.
- ❑ This session will provide an overview of:
  - The data migration progress – how we are moving data from the FFM to our new system, and
  - The renewals process, using that data, for Plan Year 2022.
- ❑ The session on October 20th will provide an overview of the NMHIX plan management module.

# Our Focus

---

---

## Data Migration Process

Migration Pay Loads

Migration Timelines

Key Points for Ensuring Successful Migration

---

Overview of Data Migration Process, including quality assurance

## Renewals Process

Renewals and Enrollment Process

Renewals Timelines
