More details will be available here as the open enrollment window approaches. In the meantime, here is some basic information:

What is Open Enrollment?

This is the annual window of opportunity for eligible New Mexicans to sign up through the Marketplace to receive health care insurance at little or no cost. In

fact, four out of five state residents who are eligible for the exchange qualify for a plan for about \$10 or less. It is also an opportunity for those already enrolled to reevaluate their plan and make changes to existing coverage to make sure they are receiving the most appropriate and comprehensive health care coverage for their unique needs.

Why is it important?

- Optimized health support: The open enrollment period provides an opportunity for you to understand all your options, determine what financial assistance is available, and get support from certified agents/brokers and enrollment counselors at no cost.
- Cost savings: Many New Mexicans who have not previously qualified for health insurance through beWellnm may now be eligible.
- Community wellness: When more New Mexicans have health insurance, all of us are healthier.
